Create Approval Process Using Zoho Creator

Aim

To implement an approval process in Zoho Creator for reviewing and approving appointment requests in the Patient Appointment Management System.

Procedure

1. Open the Patient Appointment Management System application in Zoho Creator.
2. Navigate to Workflow → Approvals.
3. Create an approval workflow named Patient_Appointment_Approval for the Appointment Booking Form.
4. Configure the workflow to trigger on submission of an appointment request.
5. Assign the approver who will review the appointment requests.
6. Configure the approval actions: send a mail to the patient email and update the Appointment Status to **Approved** when accepted and **Rejected** when rejected (executed only if Appointment_Status is "Pending").
7. Enable the approval workflow.
8. Save and test the approval workflow.

Output

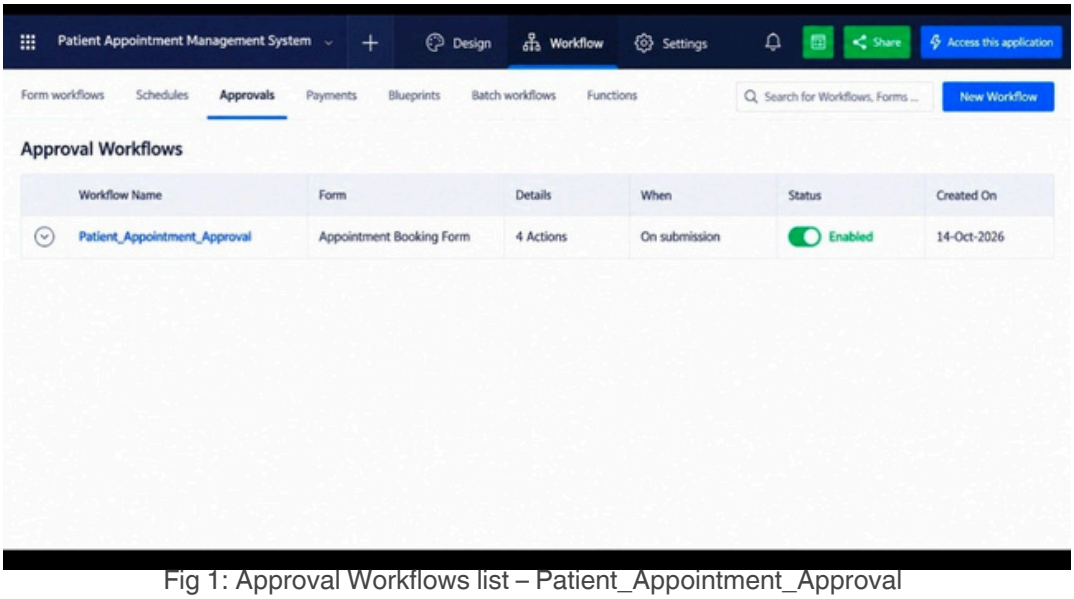

Fig 1: Approval Workflows list – Patient_Appointment_Approval

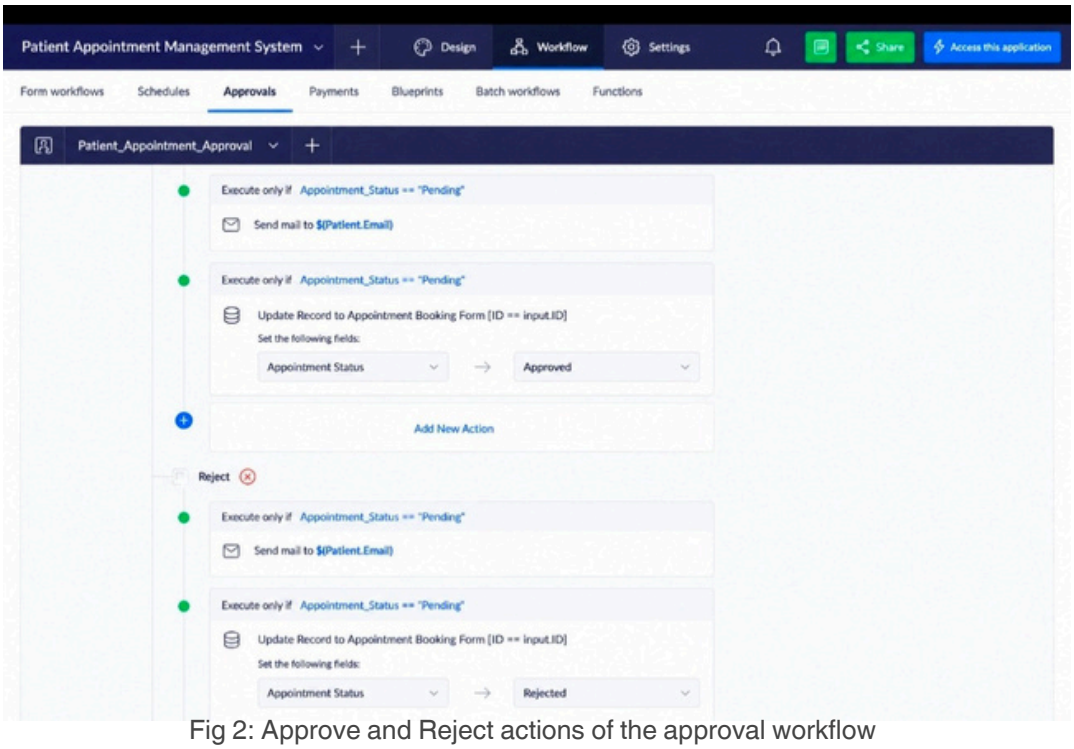

Fig 2: Approve and Reject actions of the approval workflow

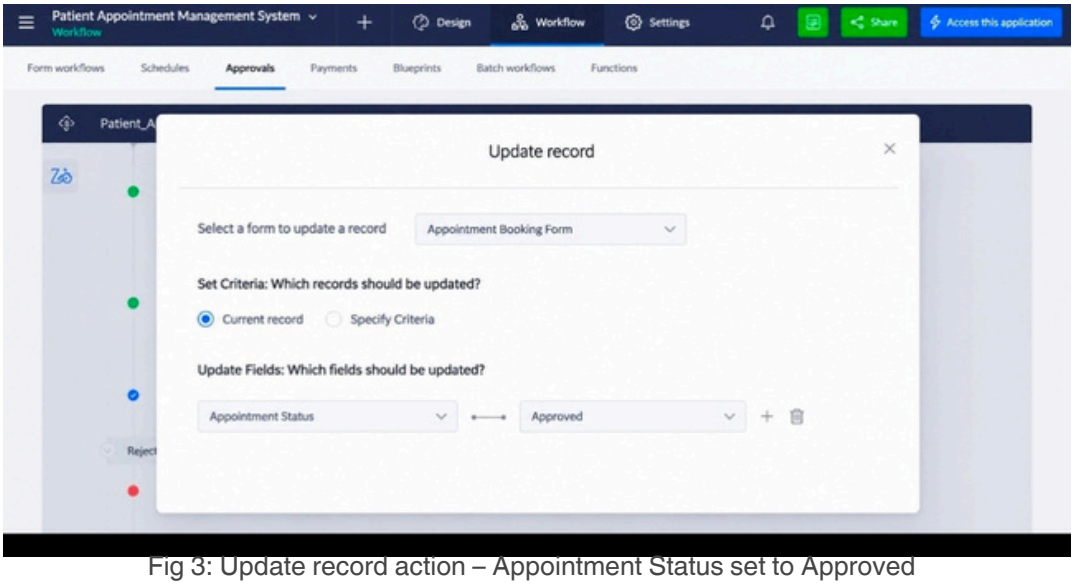

Fig 3: Update record action – Appointment Status set to Approved

Result

An approval process was configured in Zoho Creator to review and approve appointment requests and update the appointment status in the Patient Appointment Management System.
